Record.

GREENVILLE, KY., THURSDAY, JUNE 29, 1911.

50c. PER YEAR, IN ADVANCE

(These articles and illustrations must not be reprinted without special permission.)

WELCOME, SWEET BIRDS!

There's old robin at my window Singing his sweet song again. Welcome back, you dear old birds, With your merry, cheery strain. You may eat till your fill of cherries, You may string the branches bare, If you'll chill me at the sunrise With your sweet, soul cheering air.

There's the lark! Oh, see him yonder Soaring high into the sun! Welcome back, you little ones! Ere this morning's chores to done? Welcome back, sweet music teacher! Shall join your joyful pease To the God who made the springtime. And the golden summer, days.

There's the thrush! Just hear him warble! Listen to his silver bell. Hear the thrush, wrens and starlings, Mocking birds, in wood and dell. Glad to see you back, dear birds. You are part of God's great plan To make earth a second Eden And redeem poor fallen man.

C. M. BARNITZ.

IDENTIFICATION MARKS.

Grandma had a habit of docking her hens' tails to keep them out of the neighbors' coops and cook pots and, of course, got "suspicions and mad as a wet hen" when Sarah Ann Somebody clipped her chickens, conclusions ditto.

Must her usefully humiliating for a proud Biddy to become a boholt, for her peroration is not only ornamental, but useful.

It wigwags her feelings.

Does she lay a big egg or lay low some sassy hen-pecker then her tail stands straight in the air. If she's sick or flocked-down trails the flag at half mast.

Besides, it's her steering gear, and without her tail she may sail to a sad mate.

Then others add variety to the land scape by putting their hen rear, tail and butt.

Spring rains soon wash off these autumnal tints; some hen fancier immu-

PASTERS OF THE DRAFT HORSE.

The time was not very long ago when a draft horse was supposed to have a short, upright pastern and no upright shoulder. The inference was that a horse with a short, upright pastern was stronger than a horse that had a long sloping pastern. I am not prepared to deny that statement, says Dr. Henry G. Reed. I don't know but that there is something in it. If you take a draft horse with a straight up and down formation there is a possibility, everything else being equal, that that horse might move a heavier load than a horse with a sloping pastern. Why do we not want that? That is what draft horses are for, and if they have a formation which will enable them to move a heavier load why is not that the correct formation? It is simply because these horses will not wear.

You all know that the last of these draft horses get into the city; they spend their lives drawing drays up and down the paved streets of the city, and every time the horse with a straight up and down formation puts his foot on the hard pavement it is a straight up and down impact, and the horse will become sore before he is on the pavement any considerable time.

Take a horse with a pastern fairly long and sloping; every time he puts his foot down there is a spring which relieves the concussion, and as a result of that the hoof will stand the wear and tear a much greater period than a horse with a short up and down formation. We like a fairly sloping shoulder for the same reason. We ought not to be carried away with the fact that because a horse has a

The Shire mare Pinchot Bonnie was the first with shires at the international show last year. The showing of Shires at the international was about the biggest thing of the kind ever pulled off on the McLean continent. The English horse seems to be gaining a good deal of favor among American horsemen in recent years. A noticeable feature was the large number of grays exhibited by shirkles, contrast to the solid dark colors prevalent a few years ago.

straight up and down pastern and shoulder he is a better draft horse. The market today does not want it, though I think possibly in some cases a long pastern and sloping shoulder are becoming a fad.

I have seen horses that were too long and sloping in the pastern and sloping too much in the shoulder, but we want to get away from that short, upright formation, and we ought not to go too far the other way—there is always danger of going to the other extreme. Here we have a mare with a fairly well sloping pastern and a fairly sloping shoulder, far from the old fashioned formation and not at all too much for the up to date draft horse.

About Tickets.

Rickets—or "progressive rachitis," as veterinarians call it—is a disease the cause of which is not fully determined. It is, however, most common in regions where the soil is deficient in lime salts and in cases where the mare has been fed corn largely when in foal. This disease does not always, as many suppose, manifest itself soon after the birth of the colt or other young animal, especially when it takes on the progressive form of the disease. There is no known specific for it. However, many recover when fed liberally on oats.

HOW THE SILO HELPS.

By means of the silo more of the food value of forage can be saved than by any other method of preservation.

The silo affords the means of keeping in small compass a large quantity of forage safe from the weather and in convenient form for feeding.

Forage placed in the silo keeps at a uniform quality, whereas field cured forage constantly deteriorates.

Considering the food value saved, the silo affords the cheapest means for forage preservation.

Because of the palatability and succulence silage possesses a higher feeding value than does the same forage dry cured. Conservative feeders estimate that the silo doubles the value of the forage crop.

Silage can be used in summer and fall to supplement pasture.

It has been conclusively proved that the silo effects a considerable saving in the cost of production of beef, mutton, and milk.

The silo enables the farmer to keep more live stock, which promotes the rotation of crops and the preservation of soil fertility.

Save your home by having your dues repaired. Barkley Bros. do this work in best manner.

Kentucky Fair Dates.

The following are the dates fixed for holding the Kentucky Fairs for 1911 as far as reported up to date. It is suggested to report to us any additional or corrected dates.

Madisonville, July 1—3 days.
Henderson, July 25—3 days.
Georgetown, July 25—3 days.
Lexington, August 1—3 days.
Elizabethtown, August 9—3 days.
Vanceburg, August 9—3 days.
Lawrenceburg, August 15—3 days.
Eddyville, August 15—3 days.
Burgessburg, August 16—3 days.
Flem Creek, August 16—3 days.
Shepherdsville, Aug. 22—3 days.
Louisville, August 22—3 days.
Cincinnati, August 23—3 days.
Shelbyville, August 23—3 days.
Simpson, August 29—3 days.
Frankfort, August 29—3 days.
Elizabethtown, August 29—3 days.
Montgomery, September 5—3 days.
Mount Olivet, September 5—3 days.
Bardstown, September 5—3 days.
Mount Sterling, September 8—3 days.
Kentucky State Fair, Louisville, September 11—4 days.
Sevierville, September 11—3 days.
Horse Cave, September 20—4 days.
Morganfield, September 21—3 days.
Glasgow, September 27—4 days.
Mayfield, September 27—4 days.
Paducah, October 3—4 days.

THE RATE TO CHICAGO REDUCED.

Monon Route Announces New Schedule of Fares One Way and Round Trip.

The Monon Route announces that it will henceforth sell tickets between Louisville and Chicago at \$6 one way, instead of \$8 as formerly, and \$12 round trip, good 30 days returning, instead of \$16. Patrons are offered exceptionally good service by the Monon, which on night trains from Louisville operates Compartment and Drawing room Pullmans, as well as the usual straight sleeper. The day trains have Parlor and Dining cars, and the very finest modern, new coaches. Inquiries cheerfully answered by E. H. Bacon, D. P. A., Louisville, Ky.

Long-Distance Telephone, No. 72.
Office in new annex rear of store, ground floor.

50 CENTS PER YEAR, IN ADVANCE.

TERMS.

The subscription price of the paper is payable in advance and when the time has expired to write it is paid, the paper will be stopped.

Cards of thanks, obituary notices, etc., if not longer than ten lines, will be published free. A charge of five cents per line will be made for successive lines. No variation in this rule to anyone.

For sample copies will be mailed.

Advertisements will be inserted. A rate card will be furnished on request.

Address all communications and make all remittances payable to **RECORD PRESS,** Greenville, Ky.

THURSDAY, JUNE 29, 1911.

Entered at the Greenville, Ky., postoffice as second-class matter.

The judge should have waited until the Fourth to have exploded the powder trust.

There is one redeeming feature about the English crowning—Alfred Austin launched no coronation ode.

The world is so full of a number of things that we may be able to toddle along, even if the coronation is missing from the front pages.

ENGLISHMEN who witnessed the great naval review off Spithead last week should not draw the hasty inference from the size of Uncle Sam's battleship Delaware that the vessel was named in honor of the biggest state in the union.

CHICAGO is making great progress in a sanitary way. Besides swatting the flies, it has decided now to prohibit the roller towel. Furthermore, Chicago believes in the individual drinking cup, free bathing beaches, open air sleeping, and a sane Fourth.

POSTAL savings banks will serve their purpose if they do no more than keep in this country the money that hitherto has been sent back by immigrants to the government banks in the countries from which they came. Uncle Sam can make a fairly accurate guess as to what those savings foot up annually.

ONE of the great railroad systems is getting into the good roads game, the Chicago, Milwaukee & St. Paul road having started the construction of model roads leading from its stations at many points. The whole expense is being borne by the company, and already the example is being followed by cities and villages, extensions being made right along by the communities which realize the vast benefits of perfect highways.

THOSE retail lumber dealers who published a list of the manufacturers and wholesalers that they did not trade with and did not wish others to trade with are now in a fair way to discover that anti-boycott laws were not made for the wage earners only, but apply to merchants also. It is not the first time that the Courts have pointed this out, but it seems to have escaped the attention of the Lumber Secretaries' Bureau of Information.

THOMAS H. PAYNTER has withdrawn from the race for the nomination of United States Senator. This action is not a surprise to the people of the State; the real surprise was that he hung on long enough to put up his fee, which he did by a narrow margin before the expiration of the time allowed. This leaves a clear field for Hon. Ollie James, who will receive his party's honor, which is equivalent to election. Paynter was doomed from the beginning of the race, as his record in the Senate has always been with the interests, against the people. This had developed strong opposition among the people to his continuance, and when he voted to whitewash Lorimer, a man identified with the capitalists, but a member of the Republican party, the Democracy of the State was aroused to more open and vigilant opposition, and Paynter's political horizon was narrowed. The time has arrived when members of all political parties are demanding that its leaders be clean, decent and honest, and no man has chance for preferment unless his record will stand the closest investigation with credit. James' many friends are rejoicing over his pleasant situation, and his record in Congress carries assurance that he will enlarge his usefulness to Kentucky.

THE U. S. Patent Office will soon issue certificate No. 1,000,000, and it is being reserved for an invention of notable worth, at the special request of President Taft.

The Cement Industry in 1910.

The statistics of cement production in 1910, as reported by Ernest F. Burchard, of the United States Geological Survey, indicate that the cement industry ranks within the first eight extractive industries in the United States, the value of the cement produced being exceeded only by the value of the coal, pig iron, petroleum and gas, clay products, copper, gold, and stone.

Man is the animal capable of political wisdom.—Plato.

Certainly man is no other than the dream of a cloud.—Pindar.

Why, I see all of us to be no more than vain worms and shadows.—Sophocles.

Man is a bundle of habits.—Aristotle.

A man is what he is used to.—Hippocrates.

Philip, father of Alexander, had a servant whose sole business it was to remind him that he was a human. It is said, accordingly, that he never went from the house, and having returned, never gave audience to any one without first this servant would say to him three times in a loud voice: "Philip, thou art a man!"

Man is a compendium of the universe; in his reason he is an image of God; in his nutritive and reproductive functions he belongs to the animal order; he grows like a vegetable; besides he has much of the inert substance of minerals.—Pythagoras.

Epicturus said: Thou art an animal carrying a corpse.—Marcus Aurelius.

To men, man is a wolf, not a man.—Plautus.

Man, thou canst only be compared to the dirt from which thou wast made.—Guerrazzi.

The nature a people is first rude, then severe, then kind, then delicate, then dissolute.—Vico.

I have read, I know not where, that man is a beast, humanity divine. It is not true. As for me, I have always had to fix my eye upon the isolated, individual man, to reconcile myself to men in the mass.—Tarchetti.

It was the tragedian, Crebillon, who, when asked why he kept so many dogs about him, said: "Since I have come to know men, I prefer dogs."

'Tis well said that man has no greater enemy than himself.—Firenzola.

Every man is a poet and an artist in the first years of his life; an arid desert in his last years.—Tarchetti.

The immediate end of humanity is the harmonious development of all its faculties and forces.—Mazzini.

Behold the life of man: At 20 a peacock; at 30, a lion; at 40, a camel (burden bearer); at 50, a serpent (wise); at 60, a dog; at 70, a monk; at 80, nothing.—Gracian.

Men could not long live in society unless they were dupes of one another.—LaRochefoucauld.

The honest man, deceived in his illusions, but still honest, is a man par excellence.—Chamfort.

"All kinds of cheese, even the very highest flavored and so-called condimental cheese, have a high food value. But the so-called condimental value of cheese eaten in small quantities as a stimulus to the digestion of other foods was not demonstrated.

"The Swiss, who are a very healthy people, eat largely of cheese; in fact, bread and cheese form the greater part of the diet of many of them. Many other European races eat largely of cheese.

"Heretofore cheese has seldom been regarded by American consumers as possible cheap staple food. They use it as a luxury, in small quantities at comparatively rare intervals. Americans have much to learn from Europeans of some of the possibilities of preparing cheese dishes."

Do you drink coca-cola? Then ours. It is pure and refreshing. — TAYLOR & POOLE.

Roark's furniture polish is somewhat better than the rest, and is sold considerably cheaper, and with the broadest guarantee—money back if not better than any you ever used.

House and Land for Rent.

Give us your job work.

Sentences Sermons.

What the sages have said of Man. Man has been defined by Aristotle as "a reasoning animal;" by Plato as "a political animal;" by Dante as "a ridiculous animal;" by Vanini and by John Fiske as "an improvable animal;" and Buerhave calls him "mud worked up by the hand of God."

Man is the animal capable of political wisdom.—Plato.

Certainly man is no other than the dream of a cloud.—Pindar.

Why, I see all of us to be no more than vain worms and shadows.—Sophocles.

Man is a bundle of habits.—Aristotle.

A WEDDING SONG.

Autumn her leaves, as she loan'd,
And bound in waist, for it hold.
And far across the hill they went
To that new world which is the old.
Across the hills and far a way
Beyond their nimus purple rim
And deep into the dyin' day
The happy princess followed him.

Autumn her leaves, as she loan'd,
And many a merry wind, and none,
And streamed through many a golden bar,
The twilight melted in the moon.

And o'er them many a flowing range
Of vapor hung the crescent bark,
And rapt them many a cosy change
The twilight died into the dark.

And over the hills and far away,
Beyond the nimus purple rim,
Beyond the night, across the day,
Thro' all the world she followed him.

Let me fix your clock.

Continue to swat the flies.

Half of the good year 1911 has passed.

Powdery Baptist church has been completed.

Say, brother, are you staying with your swatting the fly job?

Needles for all sewing machines at Roark's.

Big crowd in Louisville from hereabouts, the excursion Tuesday drawing heavily.

Mr. Wm. Bader, foreman of this office, is spending the week in Louisville, Jeffersonville and New Albany with relatives and friends.

See Big Ben at Macks watchmaking shop.

Nothing could have been finer than the numerous showers we have had. The rain fell gently, and nothing was washed or injured.

The movement for improved highways in Muhlenberg is gaining strength daily, and there will be gratifying developments soon.

Summer furniture a specialty at Roark's. Look it over.

Everything got a boost to growing, and everybody is feeling fine now. With a continuation of seasonable weather, there will be immense crops this year.

Blackberries are on the market, and the supply is pretty strong, the showers saving much of what would have been a record-breaking supply, but for the dry spell.

A mule got scared at an automobile and ran away, killing himself. This is the first time that a mule was ever known to hurt himself in a runaway, no matter at what he got scared.

Next Tuesday is the Fourth, and many outings, picnics, fishing parties and the like are being planned. It is likely that most of the business houses will be closed for a greater part of the day, anyway.

Home rendered lard 12½c. per pound. J. E. Coomes & Co.

Muhlenberg which has so much wealth of mineral, and ranking well in agriculture, needs system of permanent roads, this being without any doubt the most important thing for the consideration and endeavor of our people.

Vacuum Cleaners in Coal Mines.

Vacuum cleaners are said to be the means that will in the future be used for the purpose of cleaning coal mines of the dangerous coal dust that has often been the cause of so much explosion, and through which many miners have lost their lives. The machines are stationed at a suitable distance from the scene of operation. Two men, each holding the "suction cleaners," then go over the mine, drawing the dust from the top sides, and bottom through the hose into a car or truck in waiting, which is then taken out of the mine and dumped. Expert mechanics are of opinion that one machine could thoroughly clean a half-mile of entries in one night.

Wheat threshing is on.

Typhoid fever is rather prevalent in and around town.

Swing settees for porches at Roark's.

Mrs. E. A. Taylor, who has suffered for some weeks from fever, is up and will soon be out, it is hoped.

Black-berrying parties are now the rage, and many people from town are going out to gather in the fruit.

Try Miss Lena Arnold's shop for high grade clothes pressing.

Property owners have been doing considerable sanitary work, and the city is in pretty fair condition along that line.

Prof. B. F. Allison, of Oakland, Cal., who has been here a few weeks with his mother, Mrs. A. M. Terry, has returned home.

Mc has "Big Ben," one of the best alarm clocks on the market.

Horse jockeys were much in evidence here Monday, but the number of transfers was not heavy—neither were the horses that were traded.

Monday was county court day, and the weather helped to bring a fair sized crowd to town, and it was too wet in many sections for farmers to do much work.

J. E. Coombs & Co. buy beef hides. Highest cash price.

Mrs. J. F. Rice has two delightful visitors who will be here for some weeks. They are Miss Ellen Timberlake, of Huntsville, Ala., and Miss Lenella Wallace, of Corinth, Miss.

The new Baptist church building at Powdery has been completed, and the dedicatory services will be held the fourth Sunday in August. There will be dinner on the grounds, and everyone is invited to attend.

Large line of collapsible go-carts at Roark's. Prices right.

Mr. Thomas Johnson died at the home of his mother, Mrs. Martha Johnson, west of town, last Thursday, after a prolonged illness from a complication of ailments. Burial was at Jernigan's Chapel Friday morning.

Mr. Thomas Johnson died at the home of his mother, Mrs. Martha Johnson, west of town, last Thursday, after a prolonged illness from a complication of ailments. Burial was at Jernigan's Chapel Friday morning.

Greenville streets are in better shape now than for many years. Several carloads of stone have been spread, gutters have been graded and cleaned out, bridges and tiles put in shape, and everything gotten in good condition.

Call on Leslie Hale, next to First National Bank, for candies, books, sundries, cigars, tobacco, etc. f3

Children's day was observed by Baptist Sunday-school at Powdery last Sunday night, and the new audience was not sufficient to house the audience. The program was an excellent one, and the children acquitted themselves with credit, the exercises being enjoyed by all present.

There was a ball game last Friday afternoon between the Y. M. C. A. team and the Old Timers, and the score stood 12-4 in favor of the former team. Rain interfered with the game, but the attendance was large. With practice the losers could be winners, and this they are going to do, they declare.

Farm Land Wanted.

A section of farm land, 20 to 60 acres, located convenient to city; ready for cultivation; improved or unimproved; will pay reasonable cash price. Address N. O. 21, care THE RECORD, Greenville, Ky. f16

Independence Day Disasters.

Independence Day is coming; day of powder-poisoning and lockjaw; day of hospitals and ambulances; day of mutilation and fire and death. If there is anything that is said in the American people it is the growing revolt against our insane manner of celebrating the Fourth of July. It might be called "Incendiaries' Day"; for on that day the fire fiend runs riot. No man having any public responsibility fails to dread it. No fire department gets through the day, and the nights on both sides of it, without exhaustion. It is doubtful if on some fifth of July an entire city may not complacently burn itself up in the faces of firemen and fire horses too exhausted by silly firecracker fires the day before to cope with it. The fire-fighting apparatus of our cities and towns is so overtaxed by the numberless calls which begin on the evening of July 3d that response to possible summons for help by neighboring towns or cities is impossible.

Wheat threshing is on.

Typhoid fever is rather prevalent in and around town.

Prof. B. F. Allison, of Oakland, Cal., who has been here a few weeks with his mother, Mrs. A. M. Terry, has returned home.

Mc has "Big Ben," one of the best alarm clocks on the market.

Horse jockeys were much in evidence here Monday, but the number of transfers was not heavy—neither were the horses that were traded.

And for what! Nobody stops to inquire. Nobody any longer cares.

We have gotten wholly away from the educational significance of "Independence" Day, and lost ourselves in an orgy of fire and noise.

A Sight Like This Would Be a Glorious Scene.

Muhlenberg has been spending something like \$15,000 per year for the past seven years on its dirt roads. The sum is not decreasing, and the condition of the roads is only slightly improving. A century of such work will bring only slight gain. What is needed now is machinery with which to build permanent roads. A road roller, which can be used as a traction engine also, a rock crusher, some dump-bottom wagons, etc., would put us in position to utilize much of our own material, and aid wonderfully in handling and placing stone shipped here. This would be making an investment of our road funds, while the present system is only an expense that is constantly recurring.

THE AMERICAN FLAG.

WHEN freedom from her mountain height
Unfurled her standard to the air
She tore the azure robe of night
And set the stars of glory there!
She mingled with its gorgeous dyes
The milky baird of the skies
And striped its pure, celestial white
With streakings of the morning light;
Then from his mansion in the sun
She called her eagle beauteous down
And gave into his mighty hand
The symbol of her chosen land.

Majestic monarch of the cloud
Who rear'd aloft thy regal form
To hear the tempest trumpets loud
And see the lightning lances driven,
When strove the warriors of the storm
And rolls the thunder drum of heaven.
Child of the sun, to th' g'lden glow
To guard the banner of the free.
To hover in the sulphur smoke,
To ward away the battle stroke
And bid its blinding shine afar
Like rainbows on the cloud of war,
The harbinger of victory!

Flag of the brave, thy folds shall fly,
The sign of hope and triumph high!
When speaks the signal trumpet tone
And the long line comes gleaming on,
Ere yet the lifeblood, warm and wet,
Has dimmed the glistening bayonet,
Each soldier eye shall brightly turn
To where thy sky born glories burn
And, as his springing steps advance,
Catch war and vengeance from the glance.

And when the cannon mouthings loud
Heave in wild wreaths the battle shroud
And gory sabers rise and fall
Like shots of flame on midnight's pall,
Then shall thy meteor glances glow
And covering woes shall shrink beneath
Each gallant arm that strikes below
That lovely messenger of death.

Flag of the seas, on ocean wave
Thy stars shall glister o'er the brine;
Sweeps darkly round the belled sail
And frigged waves rush wildly back
Before the broadside's reeling rack,
Each dying wanderer of the sea
Shall look at once to heaven and thee
And smile to see thy splendors fly
In triumph o'er his closing eye.

Flag of the free heart's hope and home
By angel hands to valor given!
Thy stars have lit the welkin dome
And all thy hues were born in heaven.
Forever float that standard sheet!
Where breathes the foe but falls before us,
With freedom's soil beneath our feet
And freedom's banner streaming o'er us?

Porch swing settees in various lengths and finishes at Roark's.

Announcements of 1912 models being made now by many automobile factories show great improvements and refinements, greater advances having been made than in the 1910 and 1911 models combined.

In addition to this, radical reductions are being announced in price, and at this rate it will be only a few years more when any man who keeps a horse and buggy can afford to keep a car. This has been the biggest year in the history of the trade, and every factory is increasing its equipment and buildings, in the effort to keep up with the heavier demand that is to come next season.

If you want a milk chocolate, strawberry milk or Bimbo Flap, we have it. TAYLOR & POOLE.

Shoots At Light, Pays \$20 Fine.

Chas. Smith, of Drakesboro, member of a colored baseball team which was passing through here in a hack about 9 o'clock last Saturday night, took a dare from his associates and tried to shoot out one of the arch lights near corner of Cherry and Hopkinsville streets. His aim was not true or his pistol was a poor one, for he missed, but he made enough noise to rouse the neighborhood, and when the hack reached the public square officers were right after him. Smith had left the hack, but was soon found, and at his trial before judge DeWitt plead guilty, drawing a \$20 fine with costs. It is said that Smith was drinking, or he would not have done the shooting, as he is a quiet fellow of good reputation.

Giant Engine On I. C.

Engines No. 1039, weighing with tender 371,000 pounds, was put in service on the I. C. last Tuesday, bringing train 101 out of Louisville at noon. It is the first of a troupe of six which will be run between Louisville and Fulton, pulling the new all-steel trains which will soon be put on. These engines are of the largest type passenger style, and are capable of great speed, at the same time have great power, capable of hauling a dozen coaches at a speed of 50 miles an hour. The I. C. is bringing this division right up in line with its Chicago-New Orleans equipment, as its business through this section is something immense, and is growing every year. The roadbed is being improved all the time, and a faster schedule will be put into effect by fall, it is thought.

Miss Essie Miller has returned from Louisville, where she is in the Masonic Orphan's Home, and will spend the vacation here with her sister, Mrs. James W. Barkley.

Last Fourth of July there were 131 people killed and 2,923 were wounded in our foolish observance of the day. Many of the wounded were in worse shape than if they had died, as they will live miserable lives of blind helplessness, suffering until the end comes. The property loss from fires ran into the hundreds of thousands.

Mr. J. L. Rogers returned the latter part of the week from Hallie, in Pike county, where he has been for six weeks supervising the construction of coke ovens on coal property in which he is interested. Eastern Kentucky is jumping along in coal development, and Mr. Rogers' holdings are well located and very valuable.

Politics is warming up rapidly in this section in the Democratic ranks, and many forces are at work to bring out a heavy vote at the primary next Saturday. One of the surprises of the past few days is the wonderful strength that is being developed by Hon. Wm. Addams, candidate for the nomination for Governor. Reports indicate a tidal wave all over the State for him, and it is thought he will defeat McCreary, who until a short while ago appeared to have the race won, slowed down and looking back.

Misses Amy and Grace Longest are attending the Teachers' State Association at Owensboro this week. Later they will visit relatives at other points in Daviess county.

B. F. Mosely, a prosperous and prominent farmer of the Breman neighborhood, was tried here by a jury Tuesday and was adjured a lunatic, being taken to Hopkinsville for treatment.

Kitty League Ball Game, Central City, July 9th.

On July 9th the Clarksville and Henderson (formerly McLeansboro) clubs will play the game scheduled for that date at Central City Athletic Park in Central City, Kentucky. A large crowd is expected to attend this game as these two clubs are first division clubs, and both are playing good ball at present, and the followers

SWAT THE FLY! IT'S A DEADLY PERIL.

California early took a determined stand in the warfare on the house fly, no one there has contributed more practical suggestions for the extermination of this dangerous insect than Prof. W. B. Herms of the state university. Prof. Herms has made a study of the fly and its dangerous qualities as a carrier of disease for many years and the results of his investigations have been embodied in books, scientific treatises, and bulletins.

Many of the latter have been reprinted and circulated by the Berkeley, Cal., board of health, and this has resulted in the practical extermination of the house fly from that town and its suburbs. That body passed a stringent ordinance regulating the erection and maintenance of stables, and violators are rigidly punished. This relates to the screening of stable doors and windows and the covering of manure pits. The contents of the latter are not only kept from flies but are removed often and when in the pits are treated with lime or decoctions of kerosene and acids which kill the flies' eggs. The open manure pile is banished.

On the surrounding ranches the manure is not allowed to accumulate but is scattered on the fields and exposed to the sun. Empty town lots are kept clear of rubbish which will attract flies as good breeding places.

Petroleum oils, sold on the market as "misible oils," "spray emulsions," etc., are applied on manure and other material in the proportion of one part of oil to ten parts of water.

Prof. Herms says: "Strike at the root of the evil. The house fly breeds in horse manures, kitchen offal, and the like. Dispose of these materials in such a way that the house fly cannot propagate."

"Fly proof closets, bins, and garbage cans must be used. Stalls must be kept clean of manure; stable yards and horse lots must be cleaned and scraped.

"Direct methods of control are simpler and incalculably more effective than temporary, ever-to-be-repeated methods as would be the application of insecticides.

"Manures already infested with larvae may be treated (drenched) with a good insecticidal distillate emulsion (one part of ten of water) which has a high flash point. Cresol compounds used five times as strong as rated for dips are also useful, as is chloride of lime if used liberally. Both, however, are relatively expensive.

"Flies collected on the windows may be sprayed with one of several proprietary insecticides, a 5 percent to 8 per cent solution of formaldehyde (a nonpoisonous liquid) sweetened with sugar, honey, or the like, and placed in shallow vessels on window sills and tables serves as a good substitute for arsenical and cobalt fly poisons."

We leave it to you to say how good is our furniture polish. We know it is the best we can buy, and sell under a guarantee. If not the best you ever used, return and get your money back—and pleasantly.

Feet and Sanity.

Statistics prove that sanity can be measured by the feet both in men and women, but the rules for the two sexes are the inverse of one another. In the Paris Academy of Sciences M. Edmond Perrier read a report by Messrs. A. Marie and MacAuliffe, which appears conclusive. Some men have large feet, and some women small feet. Conversely, beware of the small footed male and the large footed female. Out of 100 normal men, according to the report, 18 have small feet, and out of 100 insane men only 24 have large feet. The proportions for women are most exactly reversed. Twenty-three sane women of 100 have large feet, and, on the contrary, only 18 per cent. of mad women have small feet. The ancient popular opinion that a small foot is a beauty in women is thus proved sound. Even the Chinese may be justified if, by reducing a woman's foot, you may increase her sanity.

Take What Pill?
Why, a Dr. Miles' Anti-Pain Pill, of course. Good for all kinds of pain. Used to relieve Neuralgia, Headache, Nervousness, Rheumatism, Sciatica, Kidney Pains, Lumbago, Locomotor Ataxia, Backache, Stomachache, Periodical Pains of women, and for pain in any part of the body.

"I have used Dr. Miles' medicines for over 12 years and find them excellent. I keep Dr. Miles' Anti-Pain Pills in the house all the time and would not think of taking a journey without them, no matter how short a distance I am going. I cannot praise them enough."
